

Protec Product Data Sheet

Hanger Pins

TECHNICAL DATA

Material Construction:
Aluminum/Steel

Description:
Steel base with a bendable aluminum
pin & steel retaining washer

Intended Use:
Vertical Mounting & Retention of
Proplex Products

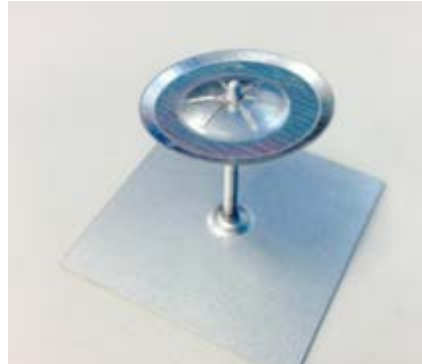

Color:
Silver

Unit:
Pin

Size:
40mm (~1.5") pin and 50mm (~2") base

Stocking Units:
500 Count Boxes (pins and washers)

Storage Recommendations:
Store away from heat sources, open
flames and strong acids and /bases.
Store indoors within recommended
storage temperatures 10 °C to 35 °C /
50 °F to 95 °F. Keep out of direct
sunlight.

PRODUCT DESCRIPTION

Hanger pins are used in conjunction with Proplex temporary protection to attach sheets to vertical surfaces such as windows, doors, walls, and elevators without the need for taping. Hanger pins are simple, safe, quick to install, and will not loosen over time. For applications where Proplex must be bent around corners, Hanger Pins can be used to securely hold the edges in place.

KEY FEATURES & BENEFITS

- Strong & secure
- Easy to use
- Quick to install
- Clean, professional appearance
- Allows for removal & reinstallation of Proplex sheets with minimal effort

GUIDELINES FOR USE

- Apply strips of Low Tack, Ultra Low Tack or Glass Tape to the surface
- Peel off release paper, affix adhesive backing to the tape
- Pierce protective material with the pin, place washer over the pin to secure in place
- Fold pin over for extra safety
- Test the tape in small area prior to install and check it throughout the project to avoid residue being left on the surface

DISCLAIMER

Information contained within this "Product Data Sheet" is for guidance only and intended for experienced industry professionals. As conditions of usage and installation are beyond our control we do not warrant performance obtained. Information is given to the best of Entry Point International's knowledge, based on manufacturers input, laboratory testing and practical experience.
